

To Chairman Powell and commissioners:

Please do not remove the present ownership restrictions and further deregulate the media ownership rules. Please do not destroy America's "Media Main Street" and what little localism still remaining. I speak especially of local radio. If anything the Commission should be doing the opposite and restricting media monopolies. We need more voices, not fewer. Up until the 80s America had the best broadcast system in the world. Please abide by the mandate of the FCC and opt for the "Public Interest". It's not broke, please don't fix it. MEDIA DIVERSITY IS VITAL FOR A DEMOCRATIC SOCIETY!
